

Date: 25th February 2016
To : Prospective Investors
Via : Mr Ruy Vogt

Dea Sirs,

I am submitting to your appreciation our proposal for investing in the production of commodities since the agricultural phase until the industrialization phase.

I am the president of this company, a nonprofit private corporation that has been qualified as an OSCIP-ONG (Organização de Sociedade Civil de Interesse Público) by the Ministry of Justice of Brazil on the 26th November 2014, which entitled us to receive governmental support either financially and logistically, with free lands, equipment, machines and vehicles, besides fiscal incentives for the development of agricultural activities.

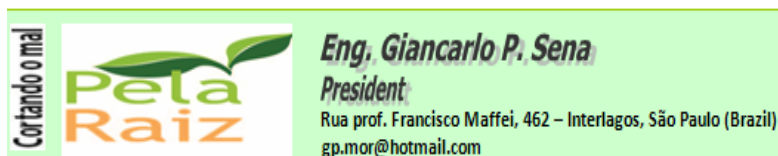

Annexed hereto, you will find a proposal that goes straight to the point and from the first pages we set out clearly and objectively who we are and what kind of surprising investment we are offering to fortunate entrepreneurs from all over the world. After reading the project, you can fill out the Questionary Form annexed hereto, giving you main informations for us to draw out a specific and free Business Plan suiting your own necessities for production.

For any doubt, please feel free to contact me in English language through Mrs Edda Silvestro, president of Swiss Group of Companies, who has been elected our Consulting Company for foreign investors. She will be pleased to give you the clarifications that you need.

Thanking you for your kind attention, I remain

Cordially Yours,

Giancarlo P.Sena
